

## The Back<sub>2</sub>Tap Pledge

I promise to drink tap water from reusable bottles instead of bottled water. I will use concentrated drink mixes with tap water to make flavored drinks instead of using disposable containers. If I do need to use a disposable container, I promise to recycle it!

By taking this pledge, I realize I can save THREE bottles of water, 1/4 cup of oil and enough CO<sub>2</sub> to fill 12 balloons every time I choose a reusable bottle instead of a disposable bottle.

The environmental improvement gained by **ONE** Back<sub>2</sub>Tap bottle in one year is:

- 167 plastic bottles not in landfills
- 44 gallons of water saved
- 6 gallons of oil saved
- 44 pounds of CO<sub>2</sub> not emitted into the air
