

## The Back<sub>2</sub>Tap Pledge

### Whenever possible:

- ✓ I promise to drink tap water from reusable bottles instead of bottled water.
- ✓ I will encourage the use of reusable containers and pitchers of tap water instead of cases of water bottles for events and parties.
- ✓ I will use concentrated drink mixes with tap water to make flavored drinks instead of using disposable containers.
- ✓ If I do need to use a disposable plastic container, I promise to recycle it!

By taking this pledge, I realize I can save THREE bottles of water, ½ cup of oil and enough CO<sub>2</sub> to fill 12 balloons every time I choose a reusable bottle instead of a disposable one.

In one year that's a savings of:

- 218 disposable plastic bottles
- 87 gallons of water
- 7 gallons of oil
- 2,600 balloons full of CO<sub>2</sub>
